

DEFINE YOUR CAREER DIRECTION

For your first homework assignment, you'll complete three exercises to define your values, passions and work preferences.

At the end of each exercise, you'll fill insights into your Career Direction playsheet, forming a full picture of your core motivators and the career direction that will be fulfilling to you.

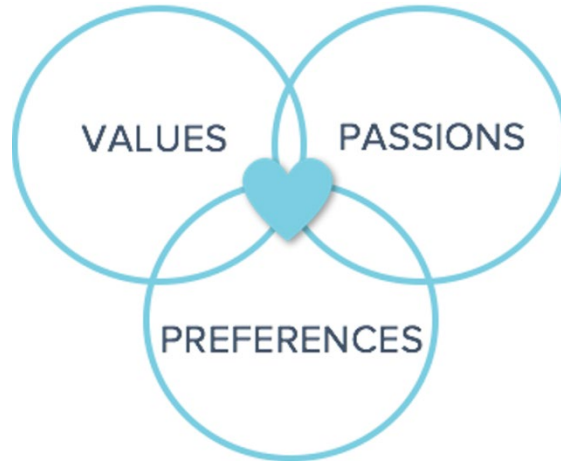

We recommend printing this packet and writing your responses by hand; writing gives us more freedom to reflect and dream, which is exactly what you want to do in this assignment.
